

Balfour Beatty

VIRTUAL WORK EXPERIENCE

19 APRIL - 17 MAY

Join us to learn about how
a career in construction
can change the world!

Due to the ongoing pandemic and the restrictions it has meant for traditional work experience placements, Balfour Beatty has developed a flexible 6-week work experience programme for students across the UK.

OUR PROGRAMME

The programme will give students access to industry professionals, the opportunity to complete tasks based on real projects and problems faced by our team on site, and offers the flexibility to fit around busy school and college schedules. Students completing the programme will gain an Industrial Cadets certificate.

SIGN UP NOW!

To view the programme modules and register for the programme [here](#).
